Do you have any idea what is causing the depressed value? A. The landfills. Q. Okay. And the landfills preceded your ownership, did they not? A. They did not precede my family's ownership, no, sir. My mom and dad bought the property in 1955. (A discussion was held off the record.) BY MR. WHITE: Q. Mr. Lewis, let me show what's been marked for identification purposes as Intervenor Exhibit 2 and ask you if you can identify this document. A. It's a deed from my mom and dad to the City of Dothan.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. I'd like to know where the original paper rest of the paperwork is at.  Q. If you would, please, sir, answer my question.  A. Am I saying that? I can tell you that Mr. Driggers coerced my daddy and convinced my daddy to sell that land. If my daddy had been told the truth, Mr. White, he would not have under no circumstances sold the City of Dothan land. But Mr. Driggers, the Mayor of Dothan at the time, was dishonest with my mom and dad, and my mom and dad, thinking they were doing him justice and being a good neighbor and a good friend to the community was misled by the Mayor of the City of Dothan. And that much, sir, is a cold hard fact. And the three people that could attest to that is all in the ground.  Q. But you just did, though, didn't you?  A. I just attested to the fact that my parents deeded a parcel of land to the City

Have -- have -- well, where 3 "the dump" -- call it the "landfill" -- and see the dust coming off. And the field next to me, do the buzzards deposit their waste? 4 4 5 A. Probably all over the property. 5 which is my parents' land, it's our family land, 6 I've got the girls -- when the girls were able 6 it will come across there where our cows are, 7 to get outside, you have buzzards that are 7 and you can see. It'll be like a fog. When the flying all over the property, coming to and from 8 wind is north -- we have a north wind that's 8 9 the landfill. I'm sure they're eating things 9 blowing our way, and it has been dry, yes. 10 that we don't want to discuss, but they're Q. Okay. Have you had any issue with 10 depositing their waste on our property, and my noise from the landfill? 11 11 kids are out there on our property. A. Yes, yes. We have backup alarms. 12 12 They start very early in the morning. You know, 13 Q. Okay. 6	right?	6	Q. Okay. And you may have answered,
7	A. Yes, sir.	7	but the landfill was there when you
8	Q. And it was built in 2006; is that	8	moved when y'all originally moved out there?
9	correct?	9	A. Yes.
10	A. (The Witness nodded).	10	Q. Okay. And that's the the one
11	Q. But you also made reference to	11	that's existing now or the closed landfill?
12	your family's property. You said you got	12	A. That's the pink landfill.
13	40 44 acres that are the family's property;	13	Q. Okay. So the existing landfill?
14	is that right?	14	A. Yes.
15	A. Yes, sir.	15	Q. Okay. Now, you mentioned at one
16	Q. And now are is all that	16	point, you said, I think, from that southwest

4	Q. Okay.	4	Q. Okay.
5	A. This is all family land up	5	A. I mean, you can GPS it and then
	to I'm not sure exactly where the barrier is,	6	kind of get the scale and kind of estimate it.
7	but that's my family's land, 44 acres. That's	7	And pretty much, the scale's pretty pretty

11	Q. So when you referenced the "farm,"	11	referencing, I guess, the impacts. So am I to
12	that's what you're referring to?	12	take it from your testimony that now it used
13	A. Yes.	13	to be worse?
14	Q. The 44 acres?	14	A. When this is when this was in
15	A. Yes.	15	full operation, it was bad. And since this
16	Q. And that's where the cows and I	16	year, when they haven't done much on it,
17	think you said horses you have horses too?	17	it's it's reduced. All the odors reduced,
18	A. Yes, we have horses.	18	the dust reduced, the noise is reduced,
19	Q. Okay. Are they in the same area	19	everything is reduced.

11	saying those if those were granted by the	11	barbecues, and the hunting, and all that, you're
12	Commission that that would basically solve all	12	still able to do that? Is it your
13	the problems out there?	13	testimony I mean, or maybe you just testified
14	A. I would like for this not to be	14	that you just can't do that anymore? Or
15	expanded at all.	15	A. There are days when it's good,
16	Q. So if they granted change to the	16	I'll be honest with you. There are days when
17	slope or the two working faces, that that's	17	it's and I'm supposed to be honest, you know,
18	going to solve the problems of the buzzards and	18	trustworthy. There are days if the wind is

3	what we're doing is overruled, I would want it	3	It doesn't matter what the wind does.
4	to lessen the effect on me and my family.	4	Q. Now, let's see. All right.
5	Q. Well, I know you had testified	5	Where you mentioned the part about the

7	when y'all were talking about the slope and	7	up and seeing them.
8	about the erosion and things.	8	A. Uh-huh (affirmative response).
9	Have you reviewed the permit, the proposed	9	Q. Where was that?
10	permit, or the active the permit?	10	A. It was on my family's land.
11	A. I've seen some of it, yes, sir.	11	Q. Okay. So it wasn't over near the
12	Q. Okay. And you're aware that	12	landfill or the proposed expansion but
13	there's erosion controls that are required by	13	A. No, it was right in here right

And have you been to your son's property on occasion? A. Regularly. Q. And have you seen the same kinds of issues that you attributed from the landfill that occurred on your property? A. Well, I wondered why he had plastic bags in his trees, and the plastic bags in the trees come from the wind off the dump. And I don't I don't see him or my granddaughters putting the plastic bags up in the trees. That's not their usual thing. Q. Have you seen buzzards on his property? A. Yes. Buzzards excuse me. We've been forced inside because of smell and

Like, we have a two-car garage, and we can't keep the garage doors open, because the mosquitoes go in there, and as soon as I close the garage doors, the mosquitoes come in the house. And it didn't used to be that way. That happened about a year ago where the mosquitoes became such an issue because of the water. The person who sold the property, the 184 acres to the City, came in there and clearcut the property almost. And when they clearcut the property almost, they destroyed the tributary, Golf Creek. And the water that used to run off on the property no longer runs off like it did. It will linger for days in the back of my yard. And it creates for us a lot of snakes, moccasins cottonmouth moccasins. Up near my garage, I killed a three-footer up near my garage two weeks ago and saw another one in the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	property?  A. It is. Q. 20	Q. What did the Corps permit authorize?	20	A. Basically, it says they just need
21		21	to send something in stating that it has been that the cell of the new cell has
22	A. That, I'm not sure.	22	
23	Q. Okay. Do do the plans show	23	been constructed in, you know, along the lines
